No immediate action required unless you use SlickEdit or need a feature from v3.5.

Consider upgrading to Netron Fusion 3.5.1

Netron Fusion 4.0

- Windows Vista - Business or Enterprise Edition
- Windows 7
- Windows 10

Netron Fusion 3.5 was released on June 16, 2008. Please read the release announcement for more information.

Fixpack 1 for Netron Fusion 3.5 (a.k.a. version 3.5.1) was released July 30, 2009.

Netron Fusion 3.5 supports Windows 7, Windows® XP and Windows Vista®. All future development of Netron Fusion will use version 3.5 as the baseline.

Netron cannot support the use of versions of Netron Fusion under Windows 7 or later that are earlier than 3.5.1. If you need to install or support Netron Fusion 3.4 under Windows Vista, please read the Netron Technical Note on Windows Vista installation .

Netron Fusion 4.0 was released at the end of 2016. It specifically targets Windows 7 and Windows 10, and does not officially** support earlier versions of Window; nor does it support Windows 8/8.1.

** It can be installed and run under Windows Vista and Windows 8/8.1. However, if anything goes wrong we may not be able to fix it. Therefore, use of the product in these environments

must be entirely at your own risk.
