

### Business Focus

Since its formation in 1981, Netron has earned a reputation of providing our customers with high-quality, adaptable software solutions, based on our state-of-the-art application construction environments, Netron Fusion™ and NETRON/CAP™.

Netron, is located in Toronto Ontario Canada, but our consulting services, like our software reuse tools, are internationally recognized. We provide software and consulting services in North America, Europe, and Australia.
